

KP-15 Remote Keypad

Security at Your Fingertips

- Easy arming/disarming of a security system
- Quick activation of panic, fire, and medical alarms
- 16 soft-touch illuminated keys
- Visual and audible feedback
- Extensive RF range
- Long battery life

The KP-15 Series' remote keypads are useful add-ons to a security system that enable the user to conveniently operate the control panel from easily accessible locations in the home. In addition to allowing the user to arm, partially arm, or disarm the security system with a few button presses, the KP-15 also facilitates quick activation of panic, fire, and medical alarms in the event of emergencies.

The keypad's 16 soft-touch illuminated keys, including 12 operational keys and 4 special function keys labeled with intuitive icons, enhance ease of use and nighttime visibility. Designed to deliver the utmost convenience and peace of mind, the KP-15 further provides three color LED indicators to display system modes as well as audible notifications of successful operations and wrong entries.

The series' KP-15-F1 model, which adopts Climax's latest RF technology, features long RF range, fast signal transmission, and more than six years of battery life. The KP-15-F1 model is compatible with Climax's F1 control panels.

The power-saving function of the KP-15 Series preserves battery life. This series' keypads automatically report low battery status and tampering to the control panel to ensure the devices' proper operation.

The wall-mounted KP-15 Series is waterproof to IP44 standard. The keypads' sleek white or deep gray consoles blend naturally with any home décor.
